**Re: Final Dock Box Guidelines**  
**Date: November 9, 2001**

## **GUIDELINES FOR DOCK BOXES**

At the 2001 Annual Meeting it was resolved that unit owners who rent dock space from the Association along the quay wall would be allowed to install dock boxes adjacent to their boats subject to guidelines to be established by the Board of Directors. Therefore

The Board will allow the placement of dock boxes subject to the following guidelines.

1. The dock box will be used to store only marine related material owned by the adjacent boat owner.
2. The purchase, installation, maintenance and removal of the dock box is the responsibility of the adjacent boat owner.
3. The dock box must meet the following physical requirements:
  - a. it shall be white
  - b. it shall be no larger than 30 inches high, 30 inches wide and 6 feet long.
  - c. it shall be made of commercial fiberglass
4. The dock box must be secured to the dock.
